The Distribution Law Center presents the Greek / Cypriot book "ΟΙ ΚΑΘΕΤΕΣ ΣΥΜΦΩΝΙΕΣ ΣΤΟ ΔΙΚΑΙΟ ΤΟΥ ΕΛΕΥΘΕΡΟΥ ΑΝΤΑΓΩΝΙΣΜΟΥ"

This Greek edition of Vertical Agreements in EU Competition Law provides a comprehensive and in-depth coverage of the EU competition rules applicable to vertical agreements together with the national state-of-play in Greece and Cyprus.

It offers a practically-oriented analysis of the regulatory framework as applied by the European Commission and the EU courts and as interpreted by the national competition authorities and administrative courts of Greece and Cyprus.

The book addresses key commercial and legal concerns with clarity and precision, answering practical questions such as: Under what conditions may territorial restrictions be imposed on a distribution network? Are maximum resale prices lawful? Are customer restrictions permissible within a selective distribution system? Can a supplier commit to exclusive supply obligations? What are the particularities of the applicable legal rules and the guiding precedents with respect to vertical agreements in Greece and in Cyprus?

Drawing on their extensive experience in the field, the authors tackle complex legal issues offering pragmatic solutions to real-world problems, while the two dedicated chapters on Greek and Cypriot enforcement practice in the area of distribution law, further enhance the book's value as an indispensable tool for Greek-speaking legal practitioners, advisors, compliance officers and business professionals interested in the field of vertical agreements in Greece and Cyprus.

Similar books are published in the local language in Belgium, Sweden and The Netherlands.
