Yearly Update on Verticals: recordings and slides now available

Couldn't join our Yearly Update on Verticals? Or would you like to revisit one of the sessions? The [recordings](#) and [presentation slides](#) are now available.

This year's webinar generated a lot of interesting questions from participants. We are therefore also preparing a Q&A document with the speakers' answers, which will be added to the webinar materials shortly.

Thank you to everyone who joined us. We hope you find the materials useful.
